Le CREG

The Center of Research in Economics of Grenoble (CREG) is the main research center in economics of the University Grenoble Alpes. It was created in January 2011. It is hosted by the Faculty of Economics of Grenoble (FEG) and the CREG brings together more than 26 researchers and 25 PhD.

Its main scientific objective for 2016-2020, "International Integration and Governance", deals with globalization and its interactions with economic development, both for firms and territories.

ROKE

The Review of Keynesian Economics (ROKE) is dedicated to the promotion of research in Keynesian economics. Not only does that include Keynesian ideas about macroeconomic theory and policy, it also extends to microeconomic and meso-economic analysis and relevant empirical and historical research. The journal provides a forum for developing and disseminating Keynesian ideas, and intends to encourage critical exchange with other macroeconomic paradigms.

GEM

Research at Grenoble École de Management (GEM) aims to accompany the evolution of individuals, organizations and society. By engaging in meaningful research on a wide range of managerial topics, GEM provides an environment to discuss, articulate and debate scientific advances.
