

CALL FOR PAPERS

3rd International Financial Forum

Rising Challenges in Economic, Financial and Business Development

September 4-6, 2024

Venue: Université Grenoble Alpes (UGA), Saint Martin-d'Hères Campus, France
Center of Research in Economics of Grenoble (CREG) & Institute of Economics and Finance (UMCS)

Following the first and the second editions of the International Financial Forum (IFF) that took place at the Université Grenoble Alpes under the auspices of the Center of Research in Economics of Grenoble (CREG) in 2022 and 2023, this third edition seeks to host studies and reflections on a broad spectrum of economic, finance and business issues that our societies face in their current evolution under growing environmental, humanitarian, and political threats.

A panel session: "Institutional reversals and the future of capitalism" will be organized with the support of the Association for Evolutionary Economics (AFEE), welcoming young and senior scholars.

A special session of the conference will be devoted to the PhD students' research papers and the best paper will be awarded by the scientific committee.

A selection of papers through a blind-review process will be proposed for a collective book publication to an international publisher after the conference.

High quality papers will be welcomed for submission for publication in Bankers, Markets & Investors under the normal review process.

Empirical and theoretical papers in the following areas will be particularly appreciated:

- ✓ Behavioral economics and finance: modern approaches to old issues
- ✓ Climate change and sectoral risks: from environmental concerns to economic issues
- ✓ Energy transition policy and its economic & financial issues
- ✓ Financial innovations and their influence on the economy
- ✓ Financial stability and new risks for the financial system
- ✓ Future of financial regulation and supervision challenges and priorities
- ✓ Labor economics
- ✓ Monetary instabilities: from Central Bank independence to the post-Covid war era
- ✓ Money and finance in a crypto world: current risks and opportunities
- ✓ Sustainable development and economic growth under the turmoil: macro and micro perspectives
- ✓ Organizational economics and growing global concerns
- ✓ Societal challenges (gender, inequalities, poverty)
- ✓ The future of work and Economics of Artificial Intelligence
